CSL Classes

enjoys the lower level yo-yo classes. I am pleased with class options.

Excellent, just wish there was more communication with parents on what the child should be practicing at home.

exceptional wide offering

Good choices

I really like them. Excelent.

love it :)

My son LOVED the Chinese Yo Yo class. He got to perform it for International Day at his regular elementary school in front of the entire school assembly.

Really good culture classes!

really loved learning about badmitten. He said that it was very well taught, very well with providing new information and lots of fun.

They're free. I enjoy using undulating strokes to depict a wonderful piece of text from ancient Chinese culture.

Think they are a good option, but we did not attend them.

We like the culture classes and our daughter enjoys them too.

We like them but the homework help is serving us more. As a non-Chinese speaking parent of a Native born Chinese Child, I can help very little when it comes to the homework.

	Our class teacher was very nice this year but did not require much learning of our kids this time. XXX stayed very confused and had to teach himself a lot using the internet and guessing most of the year. I felt this was a waste of money and made him not like school this year.
	To have a better access to it, sometimes was difficult to find the right homework.
	Blog is very useful tool.
	excellent
Heritage	More homework if possible
	I did not know that existed.
	Would help if updated and contained everything you needed in case you missed class!

Class	<p style="text-align: center;">你對中文學校有什麼感想? 請多多指教.</p> <p style="text-align: center;">What is your overall opinion of NCS? We welcome your comments/suggestions.</p>
CSL	We think NCS is great.
	I think it is a greatly enriching program. We would like to see more opportunity for summer homework. Thanks for all you all do!
	Very Happy with NCS
	NCS is a great learning environment. However, if a potential student wants to apply to NCS, they should be put in classes by means of skill in both writing, speaking, and reading, not age. And if possible, a teacher should have lesson plans for both new and old students, in order to interwine both students' learning experienceand to catch everyone up. That way, no one would be left behind, wondering if they could ever master Chinese.
	We thank its very organized and professionally ran.
	very impressed and thankful. For those wanting to do sports, Saturday mornings are hard. I would suggest a weekday evening, for example 5:30-7:30

	I would like to see more serious teaching for CSL 3 next year. I am happy to help in class with behavior if needed. They also need more chances to speak the language. Thanks for all you do.
	We love it, recommend it to all of our friends.
	Great! I really appreciate your providing this opportunity!

	We appreciate all the teachers and volunteers to work hard to keep NCS going.
	Great school
	Doing a good job :)
	Is it possible that we learn pinyin and simplified characters starting from H1? I don't see the value learning zhuyin.
	很好
	The location is a little too far away from the center of everywhere.
